

# Data Resources on Education, Workforce, and More

## Occupation and Industry Information

- [Colorado LMI Gateway](#): Search occupation projections and more statewide or by region.
- [Occupational Outlook Handbook](#): Search profiles of occupations, learning about earnings, typical education required, projections, etc.
- [Projections Central](#): Quick way to compare across states job projections, growth rates, and avg. openings.
- [ONET Online](#): Extensive information on skills and certificates, degrees, and/or industry certifications for every occupation.
- [A/D Works!](#) has a robust series of industry/occupation analysis for the Denver metro region.
- [Careers in Colorado](#): Lots of resources on career pathways for high demand jobs, required education, typical earnings, etc.
- [High wage high demand jobs by CTE career cluster](#): Interactive table by CNA, a nonprofit research and analysis organization.

## Earnings Outcomes by Community College and Four-Year Programs

- Easy to navigate, [interactive table on median earnings 1, 5, and 10 years](#) following community college or university program completion:
- Student/family resource with [additional information on earnings meeting one's lifestyle goals](#).

## Demographics

- Search [U.S. Census Bureau data](#) by state, county or metro area. Great data on a community's characteristics—education levels, age, earnings, degree major, and more.
  - [Census Explorer](#)
  - [Young adults then and now](#)
- [State Demography Office](#): Our state has an excellent demography office, with many searchable online resources including community profiles, migration data, infographics, and maps.

## Local Workforce Centers

- Your local *workforce center* has subscription tools and can retrieve and/or analyze data for you. Tools include Emsi (labor market projections/education/demographic data for your region, list of businesses by industry, etc.) and Wanted Analytics (consolidated job posting data with information on in-demand skills by occupation)

## Interesting Research

- [Colorado Talent Pipeline Report](#): Provides overview of talent issues in the state. Plus analysis statewide and by region of jobs that show high growth/high openings and provide a living wage.
- [PDK](#): Find out more about the public opinion of K-12 education—such as, 82% of Americans support job or career-oriented classes even if it means less time in “academic” classes.
- [Higher Education Research Institute](#): Over 50 years of annual surveys of college freshmen. Great insight into current and historic student perspectives.
- [Pew Research](#): Cross-cutting analysis of major social issues.
- [Georgetown Center on Education and the Workforce](#): Accessible analysis of education and labor issues, such as the report “Good jobs that pay without a BA.”
- [Gallup](#): Taking public opinion on education to inform change.
- [CTE State Profiles](#): [CTE state profiles by ACTE](#) and [Perkins Collaborative Resource Network](#)
