

Colorado CTE Course – Scope and Sequence

Course Name	Introduction to Agriculture, Food and Natural Resources A&B	Course Details	First course in the secondary course sequence for the Agriculture, Food and Natural Resources Cluster. Content in this course can be delivered at the middle school level if so desired.		
		Course = 0.50 Carnegie Unit Credit			
Course Description	An introductory course for first year agriculture education students. This course introduces students to the foundational principles of agriculture, food and natural resources. Students will gain knowledge in career development, leadership, personal development, communications, animal science, plant science, natural resources, food science, power/structure and agribusiness.				
Note:	This is a suggested scope and sequence for the course content. The content will work with any textbook or instructional resource. If locally adapted, make sure all essential knowledge and skills are covered.				
SCED Identification #	18001	Schedule calculation based on 100 % of instructional time in two semesters of class.			
All courses taught in an approved CTE program must include Essential Skills embedded into the course content. The Essential Skills Framework for this course can be found at https://www.cde.state.co.us/standardsandinstruction/essentialskills

		<p>tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.</p>	<p>CRP.04.02. Produce clear, reasoned and coherent written and visual communication in formal and informal settings.</p>	<p>speeches, interviews, presentations, oral reports, etc.).</p> <p>CRP.04.01.01.b. Analyze use of verbal and non-verbal communication strategies in work- place situations.</p> <p>CRP.04.01.01.c. Evaluate other’s verbal and non-verbal communications (e.g., speeches, presentations, oral reports, etc.) and propose recommendations for improvement in clarity, logic, purpose and professionalism.</p> <p>CRP.04.01.02.b. Apply strategies for speaking with clarity, logic, purpose and professionalism in a variety of situations in formal and informal settings.</p> <p>CRP.04.01.02.c. Evaluate personal strengths and areas for growth with regard to speaking formally and informally with clarity, logic, purpose and professionalism, and identify ways to improve.</p> <p>CRP.04.02.01.b. Compare and contrast the structure of different forms of written and visual communication.</p> <p>CRP.04.02.02.a. Identify and examine methods for producing clear, reasoned and coherent written and visual communication that are appropriate to the task, purpose and audience (e.g., audience analysis, objective development, etc.)</p>	
--	--	--	---	---	--

		<p>CRP.05. Consider the environmental, social and economic impacts of decisions. Career-ready individuals understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organizations and the environment. They are aware of and utilize new technologies, understandings, procedures, materials and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.</p>	<p>CRP.04.03. Model active listening strategies when interacting with others in formal and informal settings.</p> <p>CRP.05.01. Assess, identify and synthesize the information and resources needed to make decisions that positively impact the workplace and community.</p>	<p>CRP.04.02.02.b. Apply techniques for ensuring clarity, logic and coherence to edit written and visual communications (e.g., emails, reports, presentations, technical documents, diagrams, etc.).</p> <p>CRP.04.02.02.c. Compose clear and coherent written documents and visuals (e.g., agendas, audio-visuals, drafts, forms, etc.) that are adapted to the audience needs in both formal and informal settings.</p> <p>CRP.04.03.01.a. Research and summarize components of active listening (e.g., eye contact, have an open mind, restate, etc.).</p> <p>CRP.04.03.01.b. Apply active listening strategies (e.g., be attentive, observe non-verbal cues, ask clarifying questions, etc.).</p> <p>CRP.05.01.01.a. Examine and describe the steps in the decision-making process used in the workplace and community.</p> <p>CRP.05.01.01.b. Analyze how the process of decision making is used in workplace and community situations.</p> <p>CRP.05.01.01.c. Evaluate workplace and community decision-making processes and devise strategies for improvement.</p> <p>CRP.05.01.02.a. Examine and explain the relationship between information, resources and good decision making in workplace and community situations.</p>	
--	--	---	--	--	--

		<p>CRP.06. Demonstrate creativity and innovation. Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and</p>	<p>CRP.06.03. Create and execute a plan of action to act upon new ideas and introduce innovations to workplace and community organizations.</p>	<p>CRP.05.01.02.b. Analyze past workplace and community situations to determine if appropriate information and resources were used to make an effective decision.</p> <p>CRP.05.01.02.c. Evaluate workplace and community situations and recommend the information and resources needed to support good decisions.</p> <p>CRP.05.01.03.a. Classify the types of information (e.g., data, research, procedures, regulations, etc.) and resources (e.g., human, financial, technology, time, etc.) that maybe used to make workplace and community decisions.</p> <p>CRP.05.01.03.b. Analyze workplace and community decisions and assess the information and resources used to make those decisions.</p> <p>CRP.05.01.03.c. Synthesize information and resources and apply to workplace and community situations to make positive decisions.</p> <p>CRP.06.03.01.a. Examine workplace and community situations to identify opportunities for improvement through the introduction of new ideas and innovations.</p> <p>CRP.06.03.01.b. Assess and communicate the risks and benefits of applying new ideas and innovations to the workplace and community.</p>	
--	--	--	--	--	--

		<p>suggestions will add greatest value. They seek new methods, practices and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.</p> <p>CRP.09. Model integrity, ethical leadership and effective management. Career-ready individuals readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem. They thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.</p>	<p>CRP.09.01. Model characteristics of ethical and effective leaders in the workplace and community (e.g. integrity, self-awareness, self-regulation, etc.).</p> <p>CRP.09.02. Implement personal management skills to function effectively and efficiently in the workplace (e.g., time management, planning, prioritizing, etc.).</p>	<p>CRP.06.03.01.c. Design a plan of action to introduce a new idea or innovation into the workplace and community.</p> <p>CRP.09.01.01.a. Identify and summarize the characteristics of ethical and effective leaders in workplace and community settings.</p> <p>CRP.09.02.01.a. Identify and summarize personal management skills necessary to function effectively in the workplace (e.g., time management, planning, prioritizing, etc.).</p> <p>CRP.09.02.02.a. Examine and describe personal management skills (e.g., time management, prioritizing, setting goals, etc.) that are individually implemented and demonstrated in workplace and community situations.</p> <p>CRP.09.02.02.b. Conduct a self-assessment of personal management skills used in daily workplace or community situations.</p> <p>CRP.09.02.02.c. Model personal management skills and identify opportunities for continuous improvement.</p>	
--	--	--	---	--	--

			<p>CRP.09.03. Demonstrate behaviors that contribute to a positive morale and culture in the workplace and community (e.g., positively influencing others, effectively communicating, etc.).</p>	<p>CRP.09.03.01.a. Identify and summarize respectful and purposeful behaviors that contribute to positive morale and culture in workplace and community settings (e.g., positively influencing others, effectively communicating, etc.).</p> <p>CRP.09.03.02.a. Examine personal levels of respectful and purposeful behaviors and summarize how they are demonstrated (e.g., treat others with respect, model professionalism, etc.).</p>

				referring to companion and production animals.	
Technical content – Food Science Pathway					
Understanding the Food Industry	2	FPPS.01 Understand the Food Products and Processing Industry	FPPS.01.01 Determine the meaning and importance of food science FPPS.01.02 Understand the history and global significance of food systems	FPPS.01.01.a Define food science FPPS.01.01.b Explain the importance of food FPPS.01.01.c Integrate concepts of Food Science into other pathways/ agriculture FPPS.01.02.a Define major components of food systems	
Careers in Food Products & Science	2	CS.05. Describe career opportunities and means to achieve those opportunities in each of the Agriculture, Food & Natural Resources career pathways.	CS.05.02. Examine and choose career opportunities that are matched to personal skills, talents, and career goals in an AFNR pathway of interest.	CS.05.02.01.a. Examine and categorize careers in each of the AFNR pathways. CS.05.02.01.b. Assess personal skills and align them with potential career opportunities in AFNR pathways.	
Trends in Food Science	4	FPP.04. Explain the scope of the food industry and the historical and current developments of food product and processing.	FPP.04.02. Evaluate the significance and implications of changes and trends in the food products and processing industry in the local and global food systems.	FPP.04.02.02.a. Identify and explain environmental and safety concerns about the food supply. FPP.04.02.02.b. Research and summarize current issues related to the safety and environmental concerns about foods and food processing (e.g., GMOs, irradiation, microorganisms, contamination, etc.).	
Understanding food processing;	4	FPP.03. Select and process food products for storage, distribution and	FPP.03.02. Design and apply techniques of food processing, preservation,	FPP.03.02.02.a. Differentiate between methods and materials used for processing food for	

Common processing techniques		consumption.	packaging and presentation for distribution and consumption of food products.	different markets (e.g., fresh food products, ready to eat food products, etc.).	
Technical content – Natural Resources / Environmental Science Pathway					
Discuss the different environment cycles and their roles in Natural Resources, (water cycle, carbon cycle, ect.).	3%	NRS.01. Plan and conduct natural resource management activities that apply logical, reasoned and scientifically based solutions to natural resource issues and goals.	NRS.01.03. Apply ecological concepts and principles to atmospheric natural resource systems.	NRS.01.03.01.a. Classify different kinds of biogeochemical cycles and the role they play in natural resources systems.	
Human interactions and the impacts on Natural Resource Systems	2%	NRS.02. Analyze the interrelationships between natural resources and humans.	NRS.02.02. Assess the impact of human activities on the availability of natural resources.	NRS.02.02.01.a. Summarize the relationship between natural resources, ecosystems and human activity. NRS.02.02.01.b. Assess and explain how different kinds of human activity affect the use and availability of natural resources (i.e., agriculture, industry, transportation, etc.).	
Careers in Natural Resources	2	CS.05. Describe career opportunities and means to achieve those opportunities in each of the Agriculture, Food & Natural Resources career pathways.	CS.05.02. Examine and choose career opportunities that are matched to personal skills, talents, and career goals in an AFNR pathway of interest.	CS.05.02.01.a. Examine and categorize careers in each of the AFNR pathways. CS.05.02.02.a. Research and describe careers in each of the AFNR pathways and choose potential careers connecting to personal interests and skills.	
Identifying kinds of Natural Resources	3	NRS.01. Plan and conduct natural resource management activities that apply logical, reasoned and scientifically	NRS.01.01. Apply methods of classification to examine natural resource availability and ecosystem function in a particular region.	NRS.01.01.01.a. Summarize and classify the different kinds of natural resources using common classification schemes (e.g., living versus non-living, renewable	

		based solutions to natural resource issues and goals		versus nonrenewable, native versus introduced, etc.). NRS.01.01.01.b. Assess the characteristics of a natural resource to determine its classification.	
Discuss the different environment cycles and their roles in Natural Resources, (water cycle, carbon cycle, ect.).	3	NRS.01. Plan and conduct natural resource management activities that apply logical, reasoned and scientifically based solutions to natural resource issues and goals.	NRS.01.03. Apply ecological concepts and principles to atmospheric natural resource systems.	NRS.01.03.01.a. Classify different kinds of biogeochemical cycles and the role they play in natural resources systems.	
Human interactions and the impacts on Natural Resource Systems	2	NRS.02. Analyze the interrelationships between natural resources and humans.	NRS.02.02. Assess the impact of human activities on the availability of natural resources.	NRS.02.02.01.a. Summarize the relationship between natural resources, ecosystems and human activity. NRS.02.02.01.b. Assess and explain how different kinds of human activity affect the use and availability of natural resources (i.e., agriculture, industry, transportation, etc.).	

Technical content – Plant Science Pathway

Scope of the Plant Science Industry <ul style="list-style-type: none"> • Agronomy , Horticulture, Green Industry • aspects of the industry in Colorado <ul style="list-style-type: none"> ○ Crops ○ Nurseries 	3	PLSC 01 Understand the structure and significance of plant agriculture systems	PLSC 01.03 Understand plant production industry segments	PLSC.01.03.a Define plant system industry segments

Understand the history and management of water resources in plant systems</p>	<p>PLSC 05.01 Understand the history and background of water use in plant systems</p>	<p>PLSC.05.01.a Identify important historical events related to water use,</p>	

				<p>pollution, and conservation</p> <p>PLSC.05.01.b Describe how past events have shaped current policy regarding Colorado Water Law</p>	
Technical content – Power, Structural & Technical Systems Pathway					
Overview and Careers in the PSTS industry	2	PSTS .01 Understand the agriculture mechanical and technical system and its relationship to the industry of agriculture	PSTS .01.01 Understand the history and global significance of agricultural mechanical and technical systems	<p>PSTS.01.01.a Define major components of ag mechanical and technical systems (engineers, producers, fabricators, retailers)</p> <p>PSTS.01.01.b Define the major historical events and trends and in agriculture mechanics and technology to global agriculture production</p> <p>PSTS.01.01.c Compare industrialized nations to non-industrialized nations and their ability to produce food)</p>	
Lab Safety	3	PST.01. Apply physical science principles and engineering applications to solve problems and improve performance in AFNR power, structural and technical systems.	PST.01.02. Apply physical science and engineering principles to design, implement and improve safe and efficient mechanical systems in AFNR situations.	PST.01.02.02.c. Devise and document processes to safely implement and evaluate the safe use of AFNR related tools, machinery and equipment.	
Proper use of tools and fabrication processes	5	PST.01. Apply physical science principles and engineering applications to solve problems and improve performance in AFNR power, structural and technical systems.	PST.01.02. Apply physical science and engineering principles to design, implement and improve safe and efficient mechanical systems in AFNR situations.	PST.01.02.01.a Compare and contrast applications of simple machines in AFNR related mechanical systems.	

				PST.01.02.03.b. Select, maintain and demonstrate the proper use of tools, machines and equipment used in different AFNR related mechanical systems.
